**“The Secret Psychology of Wealth”**

“There is a secret psychology to money. Most people don’t know about it, that’s why most people never become financially successful. A lack of money is not the problem, it is merely a symptom of what’s going on inside you.”

– T. Harv Eker

**Now you can learn how to develop a Millionaire Mind...**

# What Do Rich People Do?

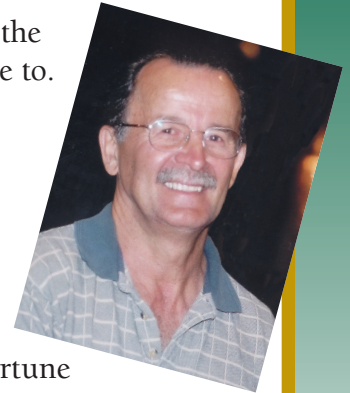

## WINNING THE MONEY GAME

Most of us were never taught how to win the money game and if we were, most likely we were taught by people who weren't very good at it. The first critical element in winning the money game is knowing exactly WHAT TO DO.

In this section, you will learn a step by step process for how to win the money game, so that you never have to work again... unless of course, you choose to.

### Here's a portion of what you will learn...

- Specific high income and wealth creation strategies
- How to quadruple your speed to financial freedom
- The 5 "habits" of truly wealthy people
- The underlying cause of almost all financial problems
- 12 ways to earn passive income so you can make money while you sleep
- The world's easiest money management method that allows you to save a fortune and at the same time encourages you to spend money for "play"
- Why it's imperative to manage your money NOW even if you don't have much of it

**Plus! You will play an amazing networking game where everyone in the room will help you get something you want.**

## "Give me 5 minutes and I can predict your financial future for the rest of your life!"

Your *outer world* is simply a reflection of your *inner world*. If you want to change your financial situation on the outside, you will first need to change it on the inside.

## YOU HAVE A PERSONAL MONEY AND SUCCESS BLUEPRINT

We all have a personal money and success blueprint already ingrained in our subconscious. This blueprint will determine your financial destiny. It is a function of our past programming, mostly from when we were young and extremely impressionable. Our blueprint comes from 3 primary sources: Verbal Conditioning - what we heard, Modeling - what we saw, and Specific Incidents - what we experienced.

In this section, you will learn **how to master the "inner game" of money.**

### Here's a portion of what you will learn...

- How your childhood conditioning is affecting your finances today
- How to identify and change your personal money and success blueprint, forever
- How to release your hidden emotional blocks to wealth
- How to recognize your "money personality" so you can build on your strengths and overcome your weaknesses
- How to use "spiritual laws" to create "real world" success
- How rich people think differently than everyone else
- How to recondition your mind for "automatic" success

# “Your income can only grow to the extent that you do!”

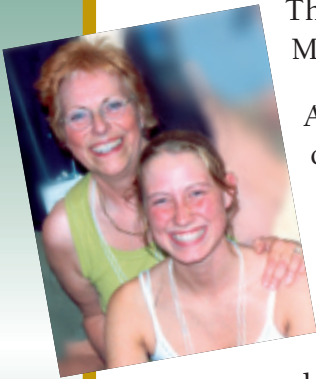

So what is your financial blueprint set for? Are you set for success, mediocrity or failure; ease or struggle; consistent earnings or an “up and down” income; saving or spending; choosing winning investments or picking losers? How do you know? One way is to look at your results! If the temperature in a room is 72 degrees, chances are the thermostat is set for 72 degrees. If you are not earning enough, keeping enough, or enjoying your money enough, then your blueprint is set for “not enough”. Fortunately or unfortunately your current financial blueprint will stay with you for the rest of your life unless you identify it and change it... and that is exactly what we do at this course.

## RIGHT NOW YOU ARE EITHER ATTRACTING OR REPELLING SUCCESS

The Universe is dynamic. Everything is in a state of constant motion and change. Meaning that at every moment you are either attracting success or repelling it.

At the Millionaire Mind Intensive you will change your money blueprint right on the spot and recondition yourself for “**automatic**” **success**. Success will become your natural way of being and good fortune (luck) will follow you wherever you go, whatever you do. By the end of this course you will have a completely different point of view towards money and success; a millionaire’s view. Best of all, the same principles you learn to enhance your financial life will also enhance your inner peace and happiness. The Millionaire Mind Intensive will teach you to be “rich” in every sense of the word.
